

PERMACON

THE HARMONY OF SPACE

Building moments

2021 LANDSCAPE PRODUCTS

The little moments in life.
When everything takes on
a new meaning

The simplicity of everyday life, the comfort of
being at home. Welcome all these moments
that make this life, **your life.**

PLEASE NOTE: THE COLOURS OF THE PRODUCTS SHOWN IN
THIS CATALOGUE ARE AS ACCURATE AS THE PHOTOGRAPHS
AND PRINTING PROCESS WILL ALLOW. SINCE ALL PERMACON
PRODUCTS ARE MADE FROM NATURAL MATERIALS, SUCH AS
SAND AND STONE THAT MAY CHANGE OVER TIME, COLOUR
AND TEXTURE VARIATIONS ARE TO BE EXPECTED. WE
STRONGLY RECOMMEND THAT YOU MAKE YOUR FINAL COLOUR
SELECTION BASED ON A CURRENT PRODUCT SAMPLE RATHER
THAN EXISTING PROJECTS OR THE PHOTOGRAPHS SHOWN
HERE. IN ORDER TO SIMPLIFY THE SELECTION PROCESS, THE
SAME COLOUR NAME MAY BE FOUND IN VARIOUS PRODUCTS.
THIS IS MEANT TO COORDINATE PRODUCTS WITH SIMILAR
COLOUR TONES, AND DOES NOT IMPLY PRECISE COLOUR
MATCHING.

Raw materials

The art of living in any season. Landscape design allows you to enhance the backdrop of happy moments. In perfect harmony with the elements, nature, and the landscape, we focus on constructing living spaces that are synonymous with well-being.

TEXTUREGUARD™ TECHNOLOGY

TextureGuard™ technology enhances the beauty of any outdoor space.
The unique manufacturing process brings to life natural colours and high-quality
surfaces reminiscent of indoor flooring.

The advantages of TextureGuard™ technology for drycast concrete products

- ✓ Trendy and timeless high-quality finishes
- ✓ Natural colours to suit any design style
- ✓ Sustainable design ensuring resistance to fading
- ✓ Smooth surfaces to the touch

What does TextureGuard™ bring to concrete products?

A base layer with solid mechanical properties

A top surface layer with a high concentration of pigments
and finer aggregates

A strong, striking and aesthetically pleasing finish

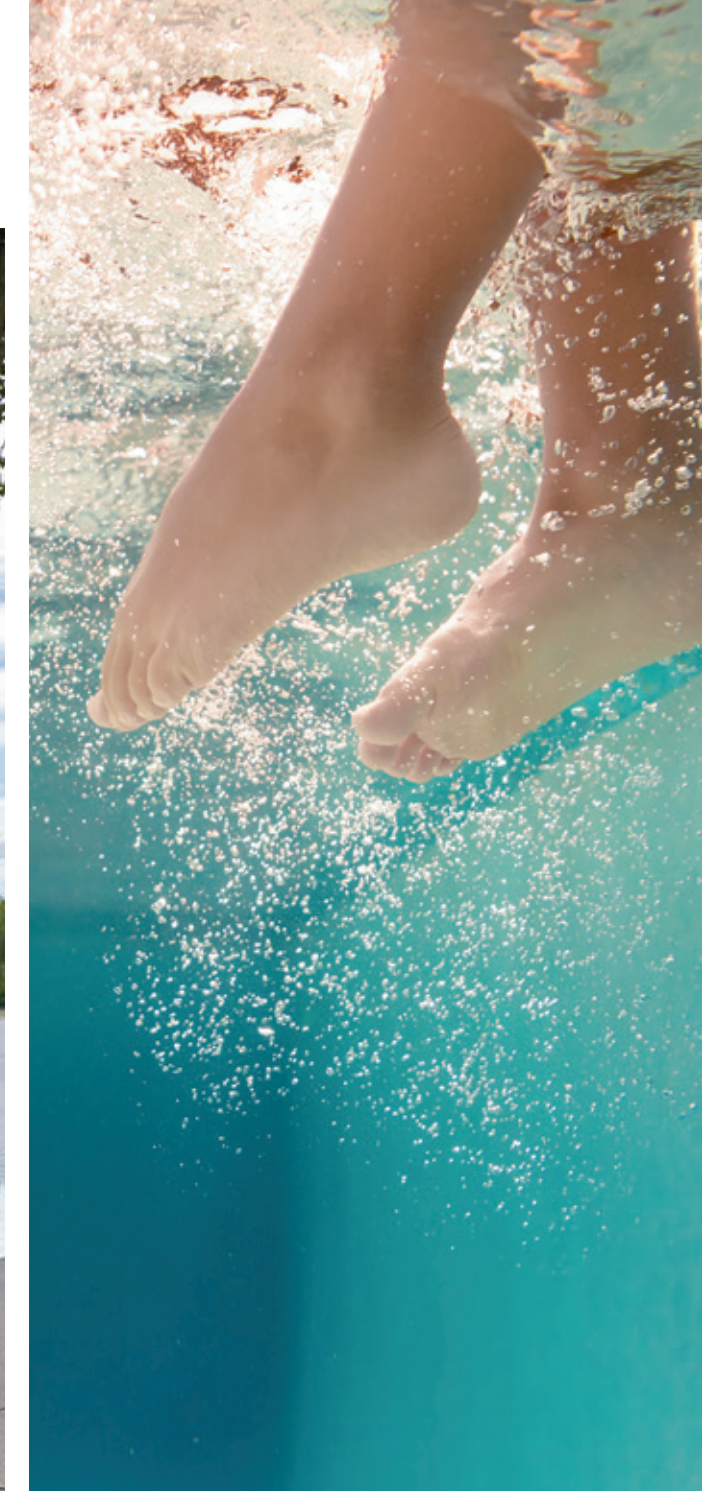

A good first impression.
The prologue of your personality.

A feeling of happiness
all summer long.

Take in the sun and share the enjoyment.

OUR

COLLECTIONS

COMBINE TEXTURES AND COLOURS

Bringing together the various surface finishes allows you to create spaces in perfect harmony. The collections make it easy to define the character of your landscape, because they were designed to combine well with each other.

Our portfolio of landscaping products is divided into FIVE COLLECTIONS.

A perfect match of styles and inspirations to simplify and optimize your purchase and the design of your project.

Care and maintenance

EFFLORESCENCE

Our warranty does not apply to efflorescence. Efflorescence is a whitish residue that sometimes appears as a white powdery film on the pavement surface. This is a naturally occurring process in all concrete products and does not affect the structural integrity of the product.

Although efflorescence is not preventable it will disappear by itself with time or can be cleaned with an efflorescence cleaner.

POLYMERIC HAZE

Polymeric haze may appear on your pavers or slabs if polymeric sand was used and not properly removed from the surface of the paver or slab. This in no way affects the structural integrity of the product. The hazing will naturally weather away with rain and time. It can also be removed with a specialized cleaner. Permacon recommends contacting your contractor or the polymeric sand company for the sand that was used for advice on the appropriate cleaning product to use.

CARE

Concrete is an organic product that can absorb stains. It must be cleaned to maintain all its beauty. It is recommended to quickly wash food stains with water and dish soap, sweep away dead leaves.

Permacon products are strong enough to withstand the rigors of our winters and de-icing salts. Make sure, however, that a protective plate covers the steel blade of the snow removal equipment you are using.

COMMITMENT

Our experts commit themselves everyday to offering products that will align with your life and your space, but above all, that will exceed the expectations of the most demanding consumers, architects and contractors.

Whether it's one of our 9 production plants, 300 showrooms or one of our construction sites, we maintain an active presence every step of the way to ensure the exceptional quality of our products.

PERMACON 65 YEARS OF KNOW-HOW AND INNOVATION

CUTTING EDGE

Permacon has long been a trendsetter that brings innovation to life. This forward thinking was embodied a few years ago when we established the industry's only R&D Centre in North America.

Whether by redefining the industry or introducing best practices, Permacon always pushes the market forward.

AESTHETICS

Taste can be infinitely varied, but we feel beauty must inhabit everything we create. For Permacon, beauty is always a matter of harmony, refinement, elegance and clean lines.

BUILDING PRIDE

All our products are made with passion and pride in Canada to meet the needs of our customers.

THE PERMACON GUARANTEE IN 4 POINTS

- ① Full coverage for **50 years**
- ② Structural integrity guaranteed
- ③ Replacement in case of manufacturing defect
- ④ Transferable to subsequent owner

* For our full warranty statement, including exclusions, see [PERMACON.CA](https://www.permacon.ca)

Install with confidence

Every paver installation starts with the right choice of jointing sand!

Exclusive to Techniseal, the NextGel technology makes both HP NextGel and SmartSand easier to spread, faster to activate, and cleaner to install.

HP NextGel provides paver installations with superior durability and greater stability than any comparable product on the market.

SMARTSAND®
with NextGel TECHNOLOGY

HP NextGel

- Ideal for residential projects, requires mechanical compaction
- Designed for optimal jointing of interlocking pavers
- Ideal for narrow joints 1/16" - 1" wide
- For pedestrian and low-traffic areas such as driveways, walkways, patios, etc.

- For residential, commercial, industrial and public projects where mechanical compaction is possible and/or mandatory
- Ideal for concrete, wet-cast, textured or clay pavers and porcelain tiles (only if mechanical compaction is possible)
- For false joints
- Ideal for joints 1/16" - 2" wide
- For high-humidity areas, heavy-sloped and high-traffic areas

tan

grey

HP NextGel and SmartSand are offered in **Tan** or **Grey** by Permacon. Other colours are available; to learn more, visit Techniseal's official website at techniseal.com.
